Cystectomy in Metastatic Bladder Cancer: Feasibility, Safety and Outcomes

Hrechko B, Voylenko O, Pikul M, Vitruk U, Stakhovsky O, Kononenko O, Semko S, Koshel D, Tymoshenko A, Buyvol O, Stakhovsky E. *Exp Oncol.* 2024;46(4):345-350

DOI: <https://doi.org/10.15407/exp-oncology.2024.04.345>

In the article by Hrechko et al. Cystectomy in Metastatic Bladder Cancer: Feasibility, Safety and Outcomes published in *Experimental Oncology* 2024;46(4):345-350, Table 1 was presented incorrectly. The correct Table 1 should be read as follows:

*Table 1. Summary of the characteristics of patients*

Variable	Overall (n = 21)
Median age	60% (IQR 33—78)
Gender	
Female	1
Male	20
Median GFR	55.9 mL/min/1.73 m <sup>2</sup>
Median operative time	230 (IQR 150—315)
ASA	3.2 (1—4)
pT stage	
T2	3
T3	12
T4	6
Megaureter	85.7%
Diversion	
Unilateral ureterocutaneostomy	16
Bricker	4
Ileal neobladder	1

Furthermore, the correct title of Table 2 should be “Details of patients’ treatment”

The publisher apologizes for the error.
